

## Classroom Placement - Parent Input Form

The month of May has arrived, and now is the time for teachers to begin developing the class lists for the next school year. A great deal of time and thought is put into creating the class lists, and our focus is always on every student's advantage to be part of a well-balanced classroom. A balanced classroom has students with various academic abilities, an equal ratio of boys and girls, and takes students special needs into consideration. When placing students in classrooms, teachers also take into consideration any conflicts of personalities between students, what type of atmosphere students learn best and ultimately what is in the best interest of all of our students and staff at Notre Dame.

Parent input is accepted in the process of assigning students to classrooms. If you wish to provide input, the deadline to do so is Tuesday, May 16th. Teachers will then finalize the class lists, and they will be confidential until they are posted right before school starts. Thank you for helping us create an outstanding learning environment for all our students!
